# COMFORT & UTILITY

## TEXTILE MATS

Textile foot mats make the vehicle interior more comfortable, whilst also offering greater protection to the floor. The mats with no-slip surface capture dirt as well as moisture. They reduce the noise level inside the vehicle, thereby increasing the comfort of the driver when travelling.

## COMFORT AND PRACTICALITY

The front and rear mud flaps protect the lower areas of the vehicle body from dirt and damage caused by stones and debris striking them. Mud flaps are useful especially in winter, when the corrosive salt that is spread on the roads generally sticks to the mud flaps rather than to the vehicle body.

Practical and stylish footrest, "Lounge Step" is completely in line with the interior design of your vehicle while increasing the travelling comfort of the user's legs and feet.

The panoramic roof is a popular feature that makes the interior light and airy. However, there are times when the car's occupants will appreciate something to block out the light from above – when the sun is beating down a bit too harshly, for example.

This is why ŠKODA Genuine Accessories offer a practical sun shade. And when it's not needed, it can simply be folded up and stored in a net under parcel shelf.
